BOLLING AIR FORCE BASE

1. Existing Facilities: Bolling AFB is GSA owned and there are no existing facilities available. Future building plans (known to be presently available at GSA) indicate that space is available, between the future construction site boundary line and the present Naval Research Laboratory at the extreme south end of Bolling AFB.
2. Construction: New construction would be required for a building and parking area on a mutually agreed upon site.
3. Considerations:
 - a. Parking would be limited.
 - b. Government cafeterias are available.
 - c. Commercial transportation is very good.
 - d. Utilities are available.
 - e. Internal security [REDACTED] would be no problem . 25X1C
4. Advantages:
 - a. ~~Located close to other Agency buildings~~ *Handy* *sites, particularly NPIC*
 - b. Housing available *in general area*
 - c. Access to main highways
 - d. Security *movement over*
5. Disadvantages (Limitations): *a. Very few disadvantages*

b. Further decentralization.
